KGODISO AUSTIN LEBOHO

ASPIRING SOFTWARE ENGINEER

LinkedIn | 0639928547 | kgodisoaustinleboho@gmail.com | Ivory Park, Gauteng| GitHub

PROFESSIONAL SUMMARY

Master's student in Computer Science with a strong foundation in Mathematics, skilled in Java, Python, JavaScript, React, Node.js, SQL, and MongoDB. Experienced in building scalable solutions through academic projects, with strong problem-solving abilities and a solid understanding of data structures and algorithms. Seeking an opportunity to apply and grow my skills in a professional software development or software engineering environment.

TECHNICAL SKILLS:

- **Programming Languages:** Java, Python, JavaScript
- **Frameworks & Libraries**: React, Node.js, Express
- **Backend Development:** REST APIs, server-side development, API integration
- **Databases:** MySQL, PostgreSQL, MongoDB
- **Tools & Platforms**: Git, GitHub, VS Code, IntelliJ, Eclipse, npm
- **Concepts:** Data Structures & Algorithms, OOP, SDLC, Debugging, Testing
- **Other:** Basic Machine Learning (Scikit-learn, XGBoost), Agile fundamentals

EDUCATION

2026 - 2027 — **MSc in Computer Science**
North West University [In progress]

2025 - 2025 — **BSc Honours in Computer Science**
North West University

2022 - 2024 — **BSc with Computer Science and Mathematics**
North West University

2019 — **National Senior Certificate (Matric)**
Ivory Park Secondary School

CERTIFICATIONS

- GET STARTED WITH PYTHON – GOOGLE, 2025
- GOOGLE UX DESIGN – GOOGLE, 2025

PROJECTS

- **Project Title:** Exoplanets Detection System
  - **Role:** Full Stack Developer
  - **Description:** Collaborated on a **full-stack Machine Learning and React project** to detect exoplanets using NASA Kepler dataset. Developed **React frontend interfaces**, implemented **ML models (Decision Trees, Random Forest, XGBoost)** for data analysis, and delivered **end-to-end full-stack functionality**.
  - **Link to work:** GITHUB
- **Project Title:** Lugha Language Learning App
  - **Role:** Developer

- **Description:** Designed and implemented interactive language learning features using Flutter, including quizzes, flashcards, and progress tracking. Integrated APIs for dynamic content updates and ensured smooth UI/UX across devices. Managed version control, issue tracking, and collaborative development workflows on GitHub. Conducted testing and debugging to ensure app stability and performance.
- **Link to work:** GITHUB

AWARDS AND HONOURS

- 2nd Place & Global Nomination: NASA SPACE APPS HACKATHON (MAHIKENG) 2025

  - **Description:** Collaboratively achieved 2nd place locally and received a global nomination for outstanding innovation and technical excellence in a competitive international hackathon.

WORK EXPERIENCE

- **Supplementary Instructor – Data Structures and Algorithms**
  North-West University, Mafikeng Campus **Aug 2024 – Nov 2024**
  - Conducted academic support sessions and guided students through complex algorithms.
  - Guided students in debugging and optimizing code for assignments and projects
- **Student Assistant – Differential Equations (Applied Mathematics)**
  North-West University, Mafikeng Campus **Feb 2025 – June 2025**
  - Assisted students in understanding differential equations through tutorial sessions.
  - Assisted students with solving problems using analytical and numerical methods
  - Developed supplementary study materials to support exam preparation
